

Community Alert System

What is Delco Alert?

Delco Alert is the designation in Delaware County of the community warning system for Southeastern Pennsylvania also known as ReadyNotifyPA.

ReadyNotifyPA helps local officials in Southeastern Pennsylvania send emergency text alerts and other notifications to you quickly.

How does Delco Alert work?

When you set up your account, you choose the way you want to get alerts. In an emergency, **Delco Alert** will send an e-mail message or text message to your cell phone or other wireless device. Read these messages right away and follow the instructions. More instructions may be sent during the emergency, so keep your device near you.

Who sends the alerts?

Local officials in Bucks, Chester, Delaware, Montgomery and Philadelphia counties will send the alerts. Alerts may be sent to everyone or groups of individuals, depending upon the alert type.

What is text messaging and how do I sign up for it?

Text messages are short messages sent to your cell phone. Each message contains between 100 and 160 characters, or about 10 words, depending on your carrier. Many carriers turn on the service automatically. Contact your carrier to make sure your text messaging is on.

Will Delco Alert cost me anything?

It is free to sign up for **Delco Alert**, and you can choose the types of alerts you want to get. *Your wireless carrier may charge you a fee to get messages on your cell phone or wireless device.* Contact your carrier to find out how much these messages may cost you with your current plan. You can choose to stop getting messages at any time.

What is a Delco Alert/ReadyNotifyPA account?

Your **Delco Alert/ReadyNotifyPA** account is a record of your contact information, such as your name, cell phone numbers and e-mail addresses where you would like to receive emergency alerts or other messages. You control this information and can change it at any time. Anyone can sign up.
